WHY BUY FROM DOOR-TO-DOOR SALESMEN? Here is what the Kiplinger magazine, Chang-ing Times, reports about the pitfalls you are exposed to when you buy from them.

PRICES ARE HIGHER. Item for item, most products sold door-to-door are likely to cost more than comparable things in stores. And, only rarely do the door-to-door salesmen promote a bargain. Then, they usually try to sell you something else."

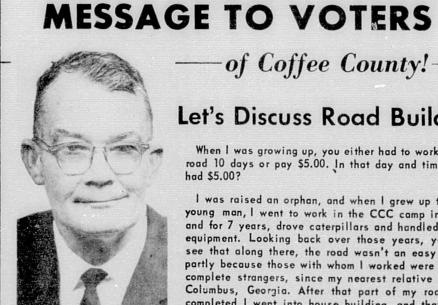

QUALITY CAN'T BE DETERMINED EASILY Many items are unknown brands created for this trade. You have no way of comparing price or quality. Selection is limited."

THERE IS OCCASIONAL DECEPTION. The salesman may not work for the firm h says he does. He may identify himself as a 'market researcher' or an 'interviewer' or a 'public relations' man. He may pose as a war veteran or college student. There are report of salesmen who take deposits and are never BE CAUTIOUS WITH DIET FADDISTS.

Authorities warn against diet faddists, who promise impossible cures and results from the unknown vitamins they offer. Their prices are usually much more than the reliable brands we stock in our prescription pharmacy. WHY TAKE UNNECESSARY CHANCES? Since the odds are that you will pay pedlars more for lesser quality, get your medicines and health-aids from us. We are always here t

### Let's Discuss Road Building

When I was growing up, you either had to work on the road 10 days or pay \$5.00. In that day and time, who I was raised an orphan, and when I grew up to be

young man, I went to work in the CCC camp in Elba and for 7 years, drove caterpillars and handled heav equipment. Looking back over those years, you can see that along there, the road wasn't an easy one partly because those with whom I worked were almost complete strangers, since my nearest relative was in Columbus, Georgia. After that part of my road wa completed I went into house building, and that's th part of my road I'm still working on today.

All along the road, I've worked with and dealt with all kinds of people in all kinds of situations — all of which I believe has given me a good understanding of people and their problems. All things considered, I feel that the road I've built for myself, in spite of some early rough spots, is a reasonably straight and true one, and now I'd like to have a part in building and improving roads for my friends

ELBA VOLUNTEER FIRE DEPARTMENT is announcing Open House for Sunday afternoon, April 12. om 1 o'clock until 4 o'clock. The Volunteer Fire Department, including the firemen, fire trucks, fire equipment and firemen's fire radio equipment will be on display during Open House and an invitation to inspect and get a first hand look at what the depart

ment has to work with in the protecting of property and lives. Refreshments will be served and baloons given to the youngsters. At 3 o'clock a test drill will be made on the firemen's radios which will be located in the rear of the fire station. Fire Chief Loyd Driggers announces that a donation box will be set up inside the fire station. Donations will help to pay for the fireman's fire radios which was purchased at a cost of \$3,000. The radio system makes it possible for the firemen and trucks to reach the scene of a fire much quicker.

The Department has a total of 20 active and two inactive firemen. Each fireman has a fire alerting mobile radio which he keeps at his side at all times. When a fire is reported the radio operator, Oscar Hussey, see top insert at right, pushes a button on a tone generator located in the police station. The generator works all the radios and an alarm is received by The picture above shows B. G. Mantle presenting the club ered 34 roads and bridge each fireman immediately. After the alarm has been on to the radios for approximately seven seconds the radio operator transmits where the fire is, thus saving previous minutes and on an average from the time of the radio alarm until they leave the fire station is about one to one and one-

This radio equipment was purchased by the fireman themselves at their own expense. Contributions will go toward the paying of this equipment. The Department has two fire trucks, one a 1951 Ford which carries 500 gallons of water and can pump approximately 750 gallons per minute. The other truck, brand new, is a 1964 GMC truck and was purchased by the city at a cost of \$11,000. It carries 500 gallons of water and can pump a maximum of 750 gallons of water per minute. This new truck is fully equipped with the most modern fire equipment that can be bought. Fire Chief Loyd Driggers was re-elected again this year for the fourth year as Chief. Chief Driggers has ten years experience in fire fighting, six years with the Volunteer Fire Department and four years with the

United States Air Force as a Crash & Structural Rescue Fire Fighter. Pictured are the following: Insert at top left, Tim Bradshaw, newest man on the department. Shown at top right is radio operator, Oscar Hussey. Inserts across bottom from left - Captain, Fred Lee; Assistant Chief, Charles Cox; Chief, Loyd Driggers; Secretary, Bob Folsom; Lieutenant, Jess Murph.
